1. The amendment filed on May 19, 2006 has been entered. Accordingly:

- The specification has been amended;
- New Figures 13 and 14 have been entered;
- Claims 1, 4 and 6-8 have been amended;
- Claims 2, 3, 5 and 9 have been canceled; and
- New claims 10 and 11 have been added.

***Allowable Subject Matter***

2. Claims 1, 4, 6-8, 10 and 11 are allowed.

The prior art of record, including Han (Korean Utility Model Application No.; 20-0279728), in view of EPS Electronics (German Patent No.: DE 29807516 U1), does not show or suggest the applicant's invention as claimed. Specifically, the prior art of record does not disclose an auto lift lighting system combining:

- A flat cable inserted into the passage hole via the insertion hole and connected to a brush electrode, wherein both passage hole and the insertion hole being defined in the winding core as recited in the amended independent Claim 1, and in newly added independent Claim 10;
- The flat cables connected to both ends of the lever, which is having its center connected to the center of gravity of the ballast box combined with the lamp as recited in the newly added independent claim 11.

The above indicated combination; including a typical arrangement of flat cable and its terminal connections with a winding core, and relative positioning of brush electrodes with respect to the winding core, makes this invention unique. In addition, the typical arrangement of a ballast box with respect to the lever and lamp is unique.

Claims 6-8 are necessarily allowed because of their dependency on the allowed base Claim 1.

Claim 4 is necessarily allowed because of its dependency on the allowed base Claim 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
